Partner Information

Sustainable Energy for All (SE4ALL) is an initiative launched by UN Secretary-General Ban Kimoon and is led by an Advisory Board co-chaired by the Secretary-General and World Bank Group President Jim Yong Kim. SE4ALL aims to drive actions and mobilize commitments to transform the world's energy systems by 2030 to:

- 1) ensure universal access to modern energy services;
- 2) double the global rate of improvement in energy efficiency; and
- 3) double the share of renewable energy in the global energy mix.

One of the great strengths of the SE4ALL initiative is its emphasis on creating public-private partnerships and the recognition that only by harnessing the power of the private sector will sustainable energy be deployed at the scale necessary to impact the global energy mix.
