

# **PLATFORMS FOR COOPERATION AND IMPLEMENTATION**

# ENERGY COMPACTS

## Energy Compacts

Energy Compacts are voluntary commitments to actions that accelerate the pace of delivery of SDG7, launched at the 2021 UN High-Level Dialogue on Energy. SEforALL played a leading role in the development, coordination and outreach for the launch of the Energy Compacts and continues to serve as focal point for the Energy Compact Action Network.

<https://www.un.org/en/energycompacts/page/about>

For detailed instructions on how to submit your energy compact, please click here: <https://www.un.org/en/energycompacts/page/submission-guidelines>

### Just and Inclusive Energy Transition (JIET) Compact

The Just and Inclusive Energy Transition (JIET) Compact, endorsed by G20 energy ministers in October 2024, aims to tackle energy poverty, foster social dialogue, respect human rights, and promote sustainable economic growth. This initiative encourages countries and organizations to commit to fair energy solutions, emphasizing inclusivity, justice, and resilience in global energy transitions.

For more information, please follow the link:  
<https://www.un.org/en/energy-compact/page/just-and-inclusive-energy-transition-jiet-compact>

In case of queries and for further information on the Just and Inclusive Energy Transition (JIET) Compact submission process, please contact [energycompact@seforall.org](mailto:energycompact@seforall.org).

**COUNCIL FOR  
CRITICAL MINERALS  
DEVELOPMENT  
IN THE GLOBAL SOUTH**

**Council for Critical Minerals Development in the  
Global South**

The Council for Critical Minerals Development in the Global South promotes international collaboration to develop critical mineral value chains in developing countries, aiming for an equitable energy transition. By leveraging abundant mineral reserves, the Council seeks to foster industrialization, socio-economic growth, and resilient communities in these regions.

For more information, please follow the link:  
<https://www.transitionmineralscouncil.org/>

For queries or instructions on how to join the Council, please click here:  
<https://www.transitionmineralscouncil.org/contact>

### No New Coal Compact

The No New Coal Compact is a voluntary commitment for countries to demonstrate their leadership and participation in the global clean energy transition. Committing to the No New Coal Compact – ending unabated coal power generation, is the first step to transitioning to a clean and sustainable energy future.

For more information, please follow the link:

<https://www.un.org/en/energycompacts/page/no-new-coal-compact>

Please find the sign-up form for the No New Coal Compact here:  
[https://www.un.org/sites/un2.un.org/files/2023/05/nnc-signup-form\\_english.pdf](https://www.un.org/sites/un2.un.org/files/2023/05/nnc-signup-form_english.pdf).

In case of additional queries on the No New Coal Energy Compact joining process, please contact [energycompact@seforall.org](mailto:energycompact@seforall.org).

### Mission 300

Mission 300 is an initiative led by the World Bank and the African Development Bank to provide electricity to 300 million Africans by 2030. The plan involves a \$90 billion investment to expand and rehabilitate electricity grids, with funding from multilateral development banks, development agencies, finance institutions, private businesses, and philanthropies.

For more information, please follow the link:

## Cool Coalition

The Cool Coalition is a global network of over 130 members, including governments, cities, businesses, and international organizations, committed to advancing sustainable cooling solutions. By promoting energy-efficient technologies and nature-based solutions, the coalition aims to reduce greenhouse gas emissions, enhance climate resilience, and provide equitable access to cooling worldwide.

For more information, please follow the link: <https://coolcoalition.org/>

Further, follow steps outlined here to submit your application to join the coalition: <https://coolcoalition.org/get-involved/how-to-join/>

## Mission Efficiency

Mission Efficiency is a global coalition of governments, organizations, and initiatives dedicated to accelerating the transition to energy-efficient economies. Its mission focuses on elevating energy efficiency in agendas, providing strategic support, and investing in projects to drive progress worldwide.

For more information, please follow the link:  
<https://missionefficiency.org/>

Further, follow steps outlined here to submit your application to join the coalition: <https://missionefficiency.org/get-involved>

## 24/7 Carbon-Free Energy Compact

24/7 Carbon-Free Energy (CFE) Compact is a multi-stakeholder Energy Compact coordinated by Sustainable Energy for All on behalf of UN-Energy, and includes a growing list of signatories from companies, organizations, and governments around the world. This Compact is an ambitious global effort to accelerate the decarbonization of the world's electricity systems to mitigate climate change and ensure access to clean and affordable electricity for all, in line with SDG7.

For more information on the compact, please click here: <https://gocarbonfree247.com/>.

Further, follow steps outlined here to submit your application to join the compact: <https://gocarbonfree247.com/how-to-join/>.

### Gender and Energy Compact

The Energy Compact on Gender Equality and Women's Empowerment promotes women's leadership, participation, and benefits in the sustainable energy transition. It focuses on gender-responsive policies, women-led businesses, and equitable access to energy opportunities.

For more information, please follow the link:  
<https://genderenergycompact.org/>

Further, follow steps outlined here to submit your application to join the compact: <https://genderenergycompact.org/how-to-join/>
